

## FOREIGN NEWS.

The British steamer CAMBRIA, Captain Judkins, arrived at East Boston, on Tuesday morning, at 8 o'clock, bringing news sixteen days later. She left Liverpool on the 5th inst., and arrived at Halifax on the 17th, whence she sailed in the afternoon. She has brought 117 passengers from Liverpool and 8 from Halifax.

Files of London papers to the 4th, Liverpool to the 5th, and Paris to the 2d inst., have been received by the Boston Daily Advertiser to which we are indebted for the following news.

The political news is of some importance, but the commercial intelligence will be of the most striking interest to the greater part of our readers.

The state of mercantile affairs in England, was still more depressed than at any former period. The scarcity of money, the magnitude of pecuniary engagements and the failure of mercantile firms in extensive business, many of them deemed of undoubted solvency, and the consequent depreciation of stocks and all descriptions of property, has produced a state of embarrassment probably without example for many years in England, and perhaps, similar in its effects on certain classes of men of business, to that which was experienced in this country some ten years ago.

The Cotton Market being for the present entirely governed by the state of money matters, it follows as a consequence that its daily transactions are records of declining prices, and American descriptions are now 3-8 to 1-2d below their quotations of yesterday week; even the accounts from the United States, which, unfortunately, represent the growing crop in a very precarious state from the badness of the weather, have been unable to arrest its downward progress.

In Brunswick street there was a very gloomy feeling in the early part of the week, and the accounts from London and most of the large country markets tended materially to lower prices, especially of wheat; however, the great consumption of this district, as compared with the growth of grain in the neighborhood, occasions sufficient demand on the foreign supplies to stay the downward tendency, and American flour in particular, on Friday, was saleable at prices improving as the market proceeded, and closing at 26s 6d per barrel.—To-day it has realized 27s, a price that of course has reference to first-rate quality.

The second edition of Wilmer & Smith's Times, dated Oct. 5th, says:—"Matters look more gloomy here this morning than even before. The whole commercial world must soon be brought to a standstill if a turn does not take place soon. Acceptances are now only provided for where the parties can bring cash only—even Bankers' Bills are refused for that purpose."

The Queen and Royal family had returned from their visit to the Scottish Highlands, and at the last date were at Osborne House, in the Isle of Wight. A Privy Council was held at Osborne House, Sept. 28, when an order was passed for the further prorogation of Parliament from the 12th of October to the 11th of November.

The Vixen steam sloop, Commander Ryder, is ordered to fit immediately at Portsmouth, for the embarkation of Mr. Percy Doyle, the newly appointed British representative to the republic of Mexico.

Father Matthew, it is now definitely announced, will visit America in the spring of 1848.

The Marchioness of Wellesley, sister-in-law to the Duke of Wellington, accompanied by her relative Mr. McTavish, is expected to embark at the close of the ensuing week for the United States, on a visit to her family connections in that country.

On the 29th June, at Canton, the Hon. A. H. Everett, Commissioner from the United States to China, expired. The funeral solemnities took place at three o'clock P. M. the following day, and attended by nearly the entire foreign community. The Rev. P. Parker officiated on the occasion.

The Ministerial crisis in Spain was still undecided. The turn which events might take in that kingdom was a matter of great uncertainty. The affairs of Italy commanded general attention, and although there was reason to expect a general pacification, the result was looked to with much anxiety. The Pope was determined to maintain the independence of his States, and was preparing to resist any attack. It was reported that he had assented to a proposition that Louis Philippe should be the arbitrator between the Holy See and Austria.

There was an open insurrection in the Kingdom of Naples, and the insurgents had defeated the royal troops in Calabria. Mr. Coletti, the Greek Prime Minister, died Sept. 12, and it was not determined who would be his successor.

Galignani's Messenger copies from the Nouvelliste of Marseille, a letter from Naples of the 21st, according to which the insurrection of Calabria and Sicily is making great progress; but there does not appear to be any other authority for this statement than the reports current at Naples.

The Paris Journals of Tuesday have reached us in due course. The Conservateur announces that a treaty has been agreed to at Rome, by which the Emperor of Austria is to withdraw his troops from the interior of Ferrara to the citadel, and the town is to be garrisoned by a body of Swiss in the pay of the Pope. This treaty, it is said only awaits the ratification of the Emperor.

The Journal des Debats had already announced that the negotiations between the Courts of Rome and Vienna were going on favorably, and the news of the Conservateur may be founded.

The Duke d'Aumale left Paris on Monday for Algeria; he is to be joined there by his family in December.

A very strong feeling is manifested by the press of Paris (the ministerial organs of course excepted) against the nomination of Marshal Soult as Marshal General of France.

## ARMY &amp; NAVY NEWS.

CAMP UNITED STATES ARMY, near Monterey, 12th September, 1847.

"The city of Monterey is now under good government, with Col. Tibbatts and a part of the 16th regiment."

"Gen. Wool has Sherman's and Deas's companies of horse artillery, Webster's and Prentice's of heavy artillery, two companies of the 1st dragoons, and the 2d Mississippi, Virginia, and North Carolina regiments of volunteers at Saltillo. We have here Bragg's artillery, three companies of 2d dragoons, six companies of the 16th Infantry, and Baylor's company of Texas mounted men. At Cerralvo, 70 miles north on our line of communication, are four companies of the 16th infantry. At Mier a part of the 3d dragoons, under Col. Butler, and the 10th regiment at Camargo and Monterey, besides a number of American citizens as traders, teamsters, &c."

"General Marshall has just got orders to join Gen. Scott's command, and will leave by the next train."—Wash. Union.

The steamer FASHION, arrived at New Orleans on the evening of the 13th from Vera Cruz.

The N. O. Picayune has Kendall's letters, dated City of Mexico, 28th Sept.—Gen. Scott was in full possession of the city. Our losses are severe and the details of the killed and wounded heart-rending.

"Thank God," says the Picayune "none of our Generals are killed; but Maj. Gen. Pillow and Gen. Shields were both wounded, but were doing well at last accounts."

In the battle of King's Mill 700 of the 8th Gen. Worth's division, were lost, and about 600 in killed and wounded in the battles of the 13th.

In the storming of Chapultepec and the attack on the citadel, Quitman's division lost 300; Twiggs 268; Pillow's 142; and Worth's 138, making the loss 848 in all.—Worth had scarcely 1000 men in this action.

Our entire loss since leaving Puebla, in killed wounded and missing, Kendall sets down at full 3,000. Another authority makes it 4,000; and yet Gen. Scott entered the valley of Mexico with only a little exceeding 10,000 men. What wonders these ten thousand achieved!

The Picayune says Col. McIntosh and Ransom, Lieut. Col. Martin Scott, Lieut. Col. Graham of infantry, Lieut. Col. Baxter, New York regiment, and Lieut. Col. Dickinson of the South Carolina regiment are dead.

The Mexican accounts representing that we were at any time seriously repulsed, are untrue. The Mexican loss is not definitely ascertained, but was enormous.—Gen. Bravo was not killed but taken prisoner.

We do not see that Santa Anna was wounded. He had resigned the Presidency and gone to Toluca with only 500 men. Some say he is going to Central America. Herrera was at Queretaro. Most of the American deserters have been hung, but Riley was only flogged.

The reported expedition of Gen. Scott to Toluca with 1500 men, was not certainly resolved upon, but was prepared.

The Mexicans it seems, let out of prison about the time of their evacuation of the city, 1000 criminals, to whom they gave arms. Between them and our people street fights and a sort of a duel began, which led to all sort of disorders, and to the killing and wounding of many on both sides.

The Mexican prisoners of war had been ordered to the capital.

General Order, No. 184. HEADQUARTERS ARMY, Mexico, Sept. 17, 1847. Under the favor of God, the valor of this army after many glorious victories, has hoisted the colors of our country in the capital of Mexico, and on the palace of their government; but the war is not ended.

The Mexican army and government have fled only to watch an opportunity to return upon us in vengeance. We must then be upon our guard. Companies and regiments will be kept together and all stand on the alert. Our safety is in military discipline. Let there be no drunkenness—no disorder—no straggling. Stragglers will be in great danger of assassination, and marauders shall be punished by court martial.

All of these rules, so honorably observed by this glorious army in Puebla, must be observed here.

The honor of the army and the honor of our country call for the best behavior on the part of the valiant, thus to win the approbation of all the good of their country. Be sober and merciful. His noble brethren in arms will not be deaf to this hearty appeal from their commander and friend.

GENERAL SCOTT.

Gen. Scott issued the following order from the National Palace:—

"The General-in-Chief calls upon his brothers in arms to return thanks both in public and private worship, thanks and gratitude to God for the glorious and signal triumph which they have recently achieved for their country; beginning with the 19th of August and ending on the 14th Sept."

"This army has gallantly fought its way through the fields and Forts of Contreras, San Antonio, Churubusco, Molino del Rey, Chapultepec and the gates of San Gastea and Tacubaya to the Capital of Mexico."

When the very limited numbers who have performed those brilliant deeds shall have become known, the world will be astonished and our country filled with joy.

"But all is not done. The enemy, though scattered and dismayed, has many small fragments of his late army hovering about, aided by an exasperated population. He has again reunited in Puebla. Our numbers are small. They are ready to fall upon us. It will be to their advantage if we rest inactive in the security of past victories."

"Compactness, vigilance and discipline are therefore our only securities. Let every good officer and man strictly regard these cautions, and enjoin them upon all others."

By command of Maj. Gen. Scott.

Gen. Quitman was appointed civil and military governor of Mexico. Gen. Scott levied contributions on corporations of capital of \$150,000, payable in three weeks.

An American paper has been issued at the Capital called the American Star.

Cassius M. Clay and others joined Scott in taking the Capital.

Names of officers liberated on parole:—Captain Clay, Heady and Smith; Lieut. Churchill, Davidson and Palmer, and 16 Privates.

The Union Extra says, "Major Twigg, Captains Van Olinda and Merrill were among the killed. Among the wounded were Colonel McIntosh, Major Loring, and Capt. Anson; Brevet Major Wright and Montgomery; Capt. Anderson, Cady, Walker and Miller; Maj. Glendon; Aid de camp Kendall of the Picayune; Col. Garland, Major Loring, Brevet Col. Johnson; Capt. Williams, Barclay, Wilson, Hungerford, Danley, McFale, Simonson, Backenloss, Tucker, Nauman, Casey, McGruder, Scantland, Gale, Barnard; Majors Curvian and John H. Savage; Capt. Lunett, Thomas Glenns, W. H. Cowans, P. W. Guthrie, James Miller, Jarvis Caldwell; Major A. H. Glendon."

The Union says that Col. McIntosh died of his wounds. Total loss, according to Delta, 1600 in killed and wounded. Herrera has been appointed to the command of the army. Santa Anna has been denounced as a traitor.

The report that Gen. Rea was at Puebla is fully confirmed, and the "Genius of Liberty" of the 27th ult., says:—"Our troops under Colonel Childs, were bombarding the city from the surrounding heights." The same paper of the 2d inst., has the following:—"General Santa Anna, never so badly discomfited, was, by the very latest accounts, at Puebla. His force, after its junction with that of Gen. Rea, amounted in infantry and cavalry to only 3000 men, and it was quartered in the convent of St. Carmen. The Americans, under command of General Childs, strongly fortified, in a massively built and very capacious convent, of the same city. Conscious of the strength of their position and its impregnability, they were awaiting the arrival of reinforcements in the utmost security and tranquility. At intervals bombs were thrown into the city, which, however, we are happy to say, did not receive much injury from their explosion, previous to the date of our account."

The following is a copy of a letter written by a foreigner to one of his countrymen in Vera Cruz—A Frenchman:

MEXICO, Sept. 28, 1847. My Dear Sir:—I avail myself of the departure of the British courier to sketch you the scenes it has been my luck to witness in the capital and its environs. The Mexicans having been beaten in all points, and in every way, from the 6th to the 13th inst.

Gen. Santa Anna left the capital on the evening of the 13th, and took the road of the interior. On the 14th, in the morning, the Americans entered the city in a very quiet manner, and Gen. Scott was already in the Palace, when, on a sudden, the people of the low classes commenced throwing stones on the Americans from the tops of the houses, and from all the streets, whilst individuals of a better standing, fired from the windows and balconies, giving it as my sincere and candid opinion, if a Continental army had been stationed and fired upon by the population of a vanquished city, the inhabitants would have been dealt with rather roughly.

This order was executed with great moderation, thanks to the secret instructions of General Scott, but in some cases, with stern energy, soon put down the insurrection.

These scenes lasted three long and sad days—from the 14th to the 17th—and, I assure you, we were much alarmed during the whole time.

All foreigners, including those embued in other respects with prejudice towards the Americans, agree in one point—that the American army had not done the hundredth part of the injury it had a right to do, and which European armies have done in similar circumstances. A foreigner myself, and having seen warfare in Europe, towards the end of Napoleon's military career, I judging by comparison, give it as my sincere and candid opinion, if a Continental army had been stationed and fired upon by the population of a vanquished city, the inhabitants would have been dealt with rather roughly.

Now we are tranquil; but it is, a sad tranquility, as we fear new disturbances. Our precarious situation will not change for the better, until peace be concluded, or the Americans send about 15,000 men. The army of invasion is really too small; for figure to yourself 7000 men in a city of upwards of 200,000 hostile souls, and in Puebla less than 1500 to restrain a population of more than 20,000. This is really too little. The Americans have covered themselves with glory in all the battles fought in Mexico; they are all and each of them heroes; but it is a great thing to see a handful of Americans cut their way through three hundred miles of dense populations, and hoist the star spangled banner on the domes of this capital.

Gen. Herrera, the Ex-President of Mexico, had gone to Perote, where a Congress is to assemble next month. He took with him 4000 men, and Santa Anna fell back upon Puebla with 2000 horsemen. These two bodies of troops are the remnants of the 30,000 regular troops who defended the city no longer than two weeks ago. Some people hoped that peace would be advocated by several members of the next Congress, at Queretaro, but for my part I do not believe it. The folly of these people is not yet at an end. When will they open their eyes to their true interest?—Never. This is my fear. All communication with the interior is cut off.

LIEUT. WHIFFLE.—It appears from the Belknap Gazette, that this young officer is still in captivity in Mexico, his friends having lately received several letters from him, in which he writes that he is kindly treated, is in good health and spirits, and hopes shortly to be exchanged.

CAPT. WALKER.—A letter in the Washington Union, in reference to the march from Jalapa to Puebla says:

"Capt. Walker, who came with the Perote troops, in charging a picket of the enemy the night before, lost eleven horses—his own fine horse and saddle, and his Philadelphia sword."

FROM TEXAS.—The steamship Yacht arrived at New Orleans on the 11th, bringing Galveston papers to the 9th. A rising of the Mexicans between the Rio Grande and General Taylor's rear, was apprehended by General Lamar, who sent to the Governor of Texas for reinforcements. The Austin Democrat says:—

He states that he has various reasons for forming this opinion. Commissions have been issued, and the population seems to be organizing rapidly into guerrilla bands. These guerrillas are represented as being well armed, many of them having revolvers, and as they are chiefly rancheros, whose proximity to, and long intercourse with the Americans has made them familiar with the rifle, and expert in its use, they may justly be reckoned the most formidable and dangerous portion of the Mexican population.

THE 'ENCARNATION PRISONERS.'—This gallant but unfortunate body of men have at length been paid off. They number in all 92 men, and Uncle Sam gave the 'boys' nearly \$17,000 for their services.

MORE TROOPS.—The President has made a requisition upon the Governor of Michigan for a regiment of infantry.

## BY THE MAILS.

THE GUNPOWDER AFFAIR.—Don Jose Carvajal, arrested at New Orleans for shipping powder for Vera Cruz, has been further examined before the Recorder of the First Municipality, and it appeared that there was no statute under which he could be criminally held. The only course open to the authorities was to bring a civil suit to recover the penalty for violating the municipal ordinances. This was done at once, and Carvajal, unable to obtain bail, was committed to answer the judgment of the District Court. The fine to which he is liable is \$3200, and not \$800, as previously stated in the New Orleans papers.

Boston Daily Adc.

GRAND INVENTION.—In the Mechanics' Fair, at Boston, one of the most useful inventions of the age was exhibited. It is a ventilating apparatus for all kinds of rooms, buildings, and public conveyances, by Frederic Emerson, Esq., author of the North American Arithmetic. He has experimented on the atmosphere for more than two years, with reference to some cheap and simple apparatus which shall not only take out the impure air from a room, ship, or any kind of public conveyance, but one which under all circumstances will draw in the pure air. He has invented what he terms his injecting and ejecting ventilator. It has been applied to most of the public school-houses of Boston, to some 200 or 300 churches, to the East Boston Railroad engine house, and to several of the Eastern Railroad cars. It is said that those cars which have it may be shut tight and full of passengers for a half day, and yet the air within the car will be about as pure as the air outside, and so of a school-house.—New Bedford Mercury.

WOOD.—The numerous railroads in the vicinity of Boston are slowly but surely bringing about one result not so comfortable to a lover of a good hard wood fire.—They are gradually absorbing all the wood in their regions, and have agents about the country purchasing lots of standing wood; so that already a scarcity is felt, and before many years have elapsed our citizens will have to give up entirely the solid oak of this region, for the less profitable wood of the Eastern country.—Boston Traveller.

OPERATIONS AT THE NEW CITY.—We learn from the Chicopee Telegraph that the gigantic plan of the South Hadley Falls Company provides water power for 56 large cotton mills, 68 by 260 feet, 6 stories high, carrying from 18,000 to 27,000 spindles each, according to the fineness of the fabric manufactured—say eleven hundred thousand, at least, together with a power for machine shops and other purposes. The primary canal, extending in a south western direction, is to be 30 feet deep, 140 feet wide at its head and 80 feet at its terminus. The water is to be conducted back by a parallel canal, to near the head of the first, where it will be discharged into another which is to extend circuitously about a mile and a half. These different canals are to furnish the 56 mills and a proportionate number of machine shops with the power requisite to their operations. The foundations of several large mills are to be laid this fall.—Boston Whig.

From the New Orleans Delta, Oct. 8th.

CAPTURE OF A ROBBER.—Some time in June last a young man named Richard Holloway married a young girl in this city. The pair proceeded up the river and stopped at Cincinnati. On the 17th ult. the store of Mr. P. Collins, of Cincinnati, was entered by burglars and robbed of nearly \$8000 in jewelry. Immediately on finding out the robbery, Mr. Collins offered a reward of \$500 for the arrest of the thieves; but until yesterday nothing was known about the matter. Yesterday morning Lieut. Busby repaired to the Pelican House, and inquired for Mr. Richard Holloway, alias Howell. He was told that he was up stairs in his room, but was too sick to come down. Lieut. Busby went up to the room of Holloway and seized his trunk. There was nothing in it but packages of jewelry. Holloway confessed that he had committed the robbery, and desired to be allowed to be immediately sent up the river, so that he might see his wife. He was arrested, however, and committed to prison.

Among other things found in the prisoner's trunk were the following articles:—19 gold watches; 43 silver watches; 37 gold pencil cases and pen holders; 43 silver do.; 116 breastpins, some of them of the most splendid kind; 9 gold thimbles; 18 pairs of silver spectacles; 137 silver thimbles; 119 fancy studs; 154 gold studs; 9 gold crosses; 96 pairs of ear rings—some of them very valuable; 386 assorted finger rings, many of them set with the finest jewels; 40 gold lockets; 28 gold watch-keys and chains; diamond rings; and other ornaments in the jewelry line, too numerous to mention. Their value, in all, is supposed to amount to near \$6000. Holloway is said to be only 26 years of age, but is known to be one of the most expert thieves in this portion of the country.

GREAT YIELD.—Col. James Smith, of Bangor city has raised the present season upon one hundred and ten rods of ground, one hundred and sixty bushels of ears of good sound corn of the small kernel Canada variety, and fit for milling. This is at the rate of one hundred and sixteen bushels of shelled corn to the acre. This is what we call a good crop for any region of country, and particularly fine for the country of Penobscot.—Bangor Whig.

THE TEETH.—According to M. La Baume, the tartar on the teeth is produced in the same manner as coral, by animalization, which after having formed the nidus, insinuates themselves between the gums and the teeth, causing diseases of both.—Washing the teeth with vinegar and a brush will in a few days, remove the tartar; and the use of powdered charcoal and the tincture of rhathany will effectually prevent its formation.

MIRACULOUS ESCAPE.—As several workmen were employed in making repairs on the building occupied by Kimball & Skerry, painters, in Neptune street, yesterday afternoon, one entire side of the building fell over, and in its descent struck against a staging upon which Mr. Charles E. Hutchinson was at work, and precipitated him into the cellar, severely though not dangerously injuring him. Had he been about two feet lower he would have been crushed, as he instead of the staging would have received the blow.

Salem Advertiser, Oct. 20th.

SAD ACCIDENT.—A son of Mr. Stephen Jackman, Jr., about four years old, was instantly killed, on Thursday. He had been playing around the ship yard, and was missed two or three hours; on looking for him, his body was found completely crushed under a cart body, a very slight portion of his dress only showing on the outside. He was no doubt climbing up on the cart, which rested against a rudder, and must have been nearly poised, when it fell over, crushing him under it. About fifty persons were at work within a short distance, but no one saw or heard the accident.—Newburyport Herald.

SUICIDE.—A young man, about twenty-eight years old, a native of France, said to be of a noble family, and very wealthy, committed suicide yesterday, by shooting himself with a pistol, at the Hotel de Paris, corner of Broadway and Reade streets.—The deceased was, for some days back, evidently laboring under aberration of mind. He called on some of his acquaintances and informed them that he was about to die, and inquired for a Catholic Priest, to prepare him for death, and spoke constantly of an unfortunate attachment which he had conceived for a married lady at Rome, to which incident he attributed all his misfortunes. On the table in his room were found two letters, one of them directed to his mother and the other to his brother, in which he apologized to them for the disgrace he had brought on his family, and through them apologized to her who had been instrumental to it. The name he went under while in this city was Charles Albert Ganette de la Maria.

N. Y. Jour. of Com.

SUICIDE IN JAIL.—A man in St. Louis, who was imprisoned for having assaulted his wife, while he was laboring under the effect of intoxication, was found in his cell, in a state of stupor. On examination it was found that he had taken some powerful narcotic. A note on a chair by his side explained all. Tired of life, he had taken a large dose of opium. Other papers, one of which was addressed to the public, entered into an explanation of the causes which led to the rash act. It is scarcely necessary to say that of these ardent spirits was the principal. He earnestly warns the world against moderate drinking, and says that all his misfortunes have sprung from this vice.

We learn from the Kalamazoo Telegraph that Mr. H. N. Monroe, of that village, encountered a bear in the Van Buren woods, and although victorious over old Bruin, he will long retain the marks of his desperate fight. He imprudently stirred him up to attack his dogs, just to see the sport, but old Bruin preferring nobler game, presented his addresses to their master, and before he got rid of his presses embraces and loving kisses, he received about forty wounds in one arm and ten in the other, besides one in the throat.

DIED WITH EXULTATION.—An old man named Edward Simmons, died on Friday, at Ward's Islands, N. Y., where he had been living under the charge of the commissioner of emigration, and had not been very well, but was improving. He had a daughter residing at Wisconsin and his son had made arrangements to take him there, and was informing the old man. He appeared to be highly excited with joy, and soon after laid down on his bed, where he was afterwards found dead.

EXTRAORDINARY PRESERVATION.—A lady Mrs. Bunn, was riding on horseback some six or seven miles south of this place, on Wednesday last, when suddenly a large tree was broken off by a gale of wind, that fell across the horse, immediately behind the saddle, killing the horse instantly;—the lady escaped without injury!

Louisiana (Mo.) Banner.

LIFE IN TEXAS.—We learn, says the Caddo Gazette, that on Tuesday, the 6th instant, Mr. Charles Rutledge, an old citizen of Panola county, Texas, was waylaid about five miles from the Louisiana line, by a young man named James Nott, and shot at, all the shot missing him excepting one, which passed through the crown of his hat and broke his spectacles, which were resting on the top of his head. At the fire of the gun, the mule on which Mr. Rutledge rode jumped and wheeled, but the old gentleman, who was also armed with a double barrel gun, perhaps expecting an attack, fired both barrels at Nott, putting four buckshot in one thigh, one in the breast; yet it is thought he will survive the wounds.

RESSELL CADY, convicted of the murder of George Manwaring, Jr., in Chenango County, N. Y., was sentenced to be hung on the 23d of November; and Dr. Dan Foote, convicted of manslaughter for inflicting blows upon his wife, which caused her death, to hard labor for life in the State Prison at Auburn.

HANGING.—Mrs. Weldon, formerly Mrs. Gaughey, of Cleveland, Ohio, and who recently committed suicide by hanging herself in Covington, Ia. A miserable end of a life made miserable by conjugal infidelity.

Twelve hundred Chinese criminals are said to have been beheaded in Canton during the past year.

## NEW FASHION FOR HAIR.—A letter from New York, says:

"I was amused at a new fashion of wearing the hair, which has lately been introduced by our super-elegants, and which I saw in perfection last evening. The peculiar thing in it is to reduce the whole head to the state of a stubble field, and he is the most elegant man who comes the nearest to having his scone shaved perfectly smooth. One gent, last night, wore his hair about a quarter of an inch long, and as its color was red, the effect was ludicrous enough.—The man looked as if his upper works were set thickly over with short, fiery bristles. However, if others laughed, he admired and both parties being well pleased, the thing could not have been better."

The second number of the New World contains the following:—

CLERICAL JOKE.—A few years since, when the Rev. Dr. Hawks, the celebrated Episcopal clergyman, was about leaving New York for the South he was waited upon by the vestrymen of a small church in Westchester county, and urgently solicited to take charge of the same. The Rev. Doctor graciously received the committee, but respectfully declined the proposal, urging as a chief objection that the salary, though liberal for the parish which they represented, would be inadequate for his expenses, having a considerable family of small children to educate and provide for. One of the committee replied, "the Lord will take care of them; he has promised to hear the young ravens when they cry, and to provide for them." "Very true," said the Rev. gentleman, "but he has not promised to provide for the young Hawks."

"STAND IN AMONGST THE PINS."—A good story is told of a Yankee who went for the first time to a bowling alley, and kept periling away at the pins to the imminent peril of the boy, who so far from having anything to do in "setting up" the pins, was actively at work in an endeavor to avoid the balls of the player, which rattled on all sides of the pins, without touching them. At length the fellow seeing the predicament the boy was in, yelled out, as he let drive another ball, stand in amongst the pins, boy, if you don't want to get hurt.

A HUMAN CURIOSITY.—A strange freak of nature was shown to us a few days since, by a gentleman who has in charge a negro child, between three and four years of age, of the male species. It is of the blackest hue, almost, except in the parts which render it a prodigy. Upon the forehead is a white spot, nearly as large as the palm of the hand, which runs up on to the head, and which is covered by a lock of hair, as white and as soft as the finest carded wool. The eye-brows are also white. The arms, above the elbows, are nearly entirely white, as are also the legs above the knees, and the calf of each leg. Nearly its entire body is likewise white; and the fair portions of this human curiosity are as smooth, soft and delicate as a lady's, and, we were told, is as readily burned by an exposure to the sun. The boy was born in Johnson county, and his parents are both real black negroes.

Raleigh (N. C.) Register.

A MISS FIRE.—A police officer in the Boston Fair, watching a suspicious looking man, saw him cautiously deposite something in his breast coat pocket, which looked in size very much like a pocket book.—Not doubting, he seized him, dragged him into a corner, and hauled out the supposed pocket book from its resting place. No pocket book, was there, but the carefully deposited article turned out to be a flat bottle, partially filled with rum and molasses, of which its owner had taken "a nipper." As there is no law against a man's sucking his bottle, the vigilant officer let him down as rapidly as he took him up.

A GOOD SLAP AT BARE ARMS.—A certain minister lately paid a visit to a lady of his acquaintance, who was newly married, and who was attired in the modern fashion. After the usual compliments, he familiarly said, "I hope you have got a good husband, madam." "Yes, sir," replied she, "and a good man, too." "I don't know what to say about his goodness," added the minister, rather bluntly, "for my Bible teaches me that a good man shall clothe his wife, but he lets you go half naked."

A jury in Consojaharie, N. Y., has awarded Catharine Wagner \$2000 damages against Stephen Fox for slander. It was a very wicked case, Miss Wagner being the cousin of defendant's wife, and residing in his family.

ELOPEMENT OF A NEPHEW WITH HIS AUNT.—A young scamp named John Bennett lately eloped with the young wife of his uncle, also named John Bennett, of Canton in this State. The nephew boarded in the family of the uncle, but the latter suspecting that matters were not as they should be between the former and his wife, forbade him the house, and he took up his abode in another family. Subsequently, the nephew was discovered rolled up in a coverlid in the wife's bed-room, by his uncle, who attacked him with a carving knife, but he escaped from his vengeance; in the course of a few hours the guilty pair managed to flee together from the town, taking with them two of her three children.

Springfield (Mass.) Republican.

SOUTH-DENNIS.—A gentleman from South-Dennis informs us that during the past year about twelve vessels, from 100 to 175 tons burthen, have been built by the money of capitalists of that village. These vessels have been taken up in shares by quite a large number of persons, and are to be commanded by South-Dennis captains. A part of the vessels are especially designed as coal freighters; and some of them for coasting. The South-Dennis boys are of the right material to go ahead, and we are happy to observe this evidence of their increasing prosperity.—Yarmouth Register.

NEWPORT MERCURY,  
NEWPORT.

SATURDAY MORNING, OCT. 23, 1847.

The GENERAL ASSEMBLY of this State, will meet at South Kingston on Monday next.

**MEETING.**—An adjourned town meeting was held on Tuesday last for the purpose of taking into consideration the Report and act for reform in the town government and other referred business. The Committee on the dock west of the Red Market, reported, that in their opinion, the title was in the town.

A communication was received from the Society of Friends proposing to transfer the old Codding burial place, in Farewell street to the town, on condition that it may be preserved forever as a burial place, and kept in suitable repair. It was voted unanimously, that the said proposition be accepted, and that the Town Treasurer be a committee to receive a deed of said ground.

The petition of D. Melville for leave to take water from the Fountain in Mill street, was referred to the Town Council.

The bells of the churches now rung at 12 o'clock, M. and 9 P. M. were ordered to be rung also at sunrise.

The business of the day was then taken up, and the various sections of the act for amending the town government having been read, after a long debate, the whole subject, on motion, was indefinitely postponed.

John F. Townsend and Jos. T. Perry were appointed a committee to request the drivers not to take a stand with their cattle in the streets for exhibition.

The town refused to continue the appointment of Town Marshal temporarily provided for by the Town Council.

Several bills for expenses, &c. were presented and passed.

The meeting was then adjourned, *sine die*.

## STATE ELECTIONS.

**PENNSYLVANIA.**—Gov. Shunk, (Dem.) is re-elected Governor of Pennsylvania by a majority of about 18,000 over Gen. Irvin, the Whig candidate. The Senate consists of 17 Whigs, and 16 Democrats. The House is Democratic by a large majority. In the last Legislature, the Whigs had a majority of 5 in the Senate, and 12 in the House.

**GEORGIA.**—The Hon. G. W. N. Towns, (Dem.) has been elected Governor by a majority of upwards of 1500. The Savannah Republican gives returns of the election from every county but Ware. It says that now the Whigs have 25 Senators, the Democrats 22, and there is 1 Independent. In the House there are 67 Whigs to 62 Democrats elected. So that the Whig majority on joint ballot will be seven. There are 2 United States Senators to be chosen by this body—one to fill the seat heretofore occupied by Senator Berrien, and another in place of Senator Colquitt, whose term expires in 1849.

**MARYLAND.**—The returns show that Philip F. Thomas, the Democratic candidate for Governor, has been elected by a majority of about 700.—Four Whigs and two Democrats are elected to Congress. In the State Legislature there is no change of parties the Whigs have a large majority in both branches of the Legislature.

**OHIO.**—Sufficient returns have been received from this State to ascertain the general result of the election. The Whigs will have a majority in both branches of the Legislature. A U. S. Senator is to be chosen at the next session in place of Mr. Allan.

**FLORIDA.**—We have returns of the election in Jackson County, from which it appears that the Whigs elected most of their County Officers, a Senator, and two out of three members of the House, by an average majority of about 30.

**IOWA.**—The official vote gives a majority for the Democratic candidates for Congress of 551 in the first district and 285 in the second.

**ANOTHER.**—A fine Helm. Brig, built by Silas H. Cottrell, Esq., will be launched from his Ship Yard in about two weeks. Her length is 88 feet on deck, breadth of beam 23½ feet, and will register 160 tons. She is to be commanded by Capt. James Burdick, (formerly of the *Tusso*), and will be called the *RANDOM*.

We understand that the new barque *CHARLES DEVENA*, was launched this morning, at 7 o'clock.

**FIRE AT PROVIDENCE.**—The lively stable and shed occupied by Mr. Joseph Hunt, proprietor of the Warren and Bristol line of stages, and by Messrs. Monroe, as a lively stable, were destroyed on Saturday morning, about 2 o'clock. Several adjacent buildings were damaged by the fire.—The property destroyed belonged to the Peck estate. The stable was full of horses when the fire broke out, three of which were burnt.

**ROGUERY.**—The Mobile Register states that Mr. Levy of New York, purchased goods to the amount of \$1100, and shipped them to his brother at Mobile. When the packages were opened the goods were not to be found, their place being supplied by old rags and other worthless articles.

**SCARCITY OF SAILORS AT NEW ORLEANS.**—The New Orleans Price Current states that there is a great difficulty at that port for want of seamen, and that ships which had been cleared for several days, were detained in port for want of crews.

Mr. Longworth, of Cincinnati, has made from this season's vintage of Catawaba grapes 6000 bottles of Champagne wine of superior quality, which will be fit for use next year.

Goffstown, N. H., muster came off last week, to which the gamblers resorted in great force. One individual had at one hour of the day obtained fifteen hundred dollars of his accomplices, and actually left the field with one thousand of it.

**A SINGULAR CASE OF PETRIFICATION.**—The Cincinnati Chronicle states that a gentleman recently brought into Portsmouth Ohio, from the Bloom Furnace, Scioto County, a petrified portion of a human body. The part which we saw, says the Chronicle, was the foot and a part of the leg. Having been converted into iron by a gradual process, the minutest divisions, as between the toes, &c., were not visible; but the general outline of the foot and ankle was palpable. The spreading across the toes, the general outlines of the toes, the heel, ankle, &c., were perfectly plain. We were told that the head and arms were still more perfect! There could not be the least doubt of its having been a man. Nor is there much doubt of the manner in which it came into this condition. The body must originally have been petrified in time; but of this there remains now only the outside intrustation, which will crumble off. What was the man is now iron. By some natural process the iron must have grown out of this lime, and here is a theme for geologists. How did the change take place? If we are right, and the facts seem to leave no room for doubt, this iron man would afford one of the most beautiful subjects for a geological lecture. The iron ore in which it was found is called the calcareous formation. The process of its formation would be an instructive study.

**GRADUAL RISE OF NEWFOUNDLAND ABOVE THE SEA.**—It is a fact worthy of notice, that the whole of the land in and about the neighborhood of Conception Bay, very probably the whole island, is rising out of the ocean at a rate which promises at no very distant day, materially to affect, if not to render useless, many of the best harbors we have now on the coast. At Port de Grave a series of observations have been made, which undeniably prove the rapid displacement of the sea-level in the vicinity. Several large flat rocks over which schooners might pass some thirty or forty years ago, with the greatest facility, are now approaching the surface, the water being scarcely navigable for a skiff. At a place called Cosh, at the head of Bay Roberts, upward of a mile from the shore, and at several feet above its level, covered with five or six feet of vegetable mould, there is a perfect beach, the stones being rounded, of a moderate size, and in all respects similar to those now found in the adjacent land washes.—*Newfoundland Times*.

**YELLOW FEVER.**—There has been an increase of deaths recently, owing to the entrance of strangers and absentees. The disease is not exterminated, but ceased merely from the exhaustion of material.—Our friends, or strangers, at the north, by the time this reaches them, may safely turn their footsteps hitherward, but to those at the neighboring watering places, we say, tarry yet where you are for two or three weeks longer.—*N. O. Bulletin*, 7th.

**MONUMENT TO HARRISON.**—A public meeting of the friends and fellow-soldiers of the late President Harrison was recently held at Cincinnati, when it was resolved that "the soldiers in the late war, in the Northwest, and the friends of the late lamented President Harrison, be invited to convene in the city of Cincinnati on the 6th of November next, to consult upon the most suitable measures for erecting a monument at North Bend, to be a memorial of the national gratitude to that illustrious patriot.

Charles Johnson, a clerk at Oak Hall, was arrested on Thursday afternoon, charged with appropriating to his own use goods to the amount of \$1000. He had been in the habit of sending goods to New York, where they were sold at auction. A lot of unusually rich cravats having come into the hands of the auctioneers for sale, led to an inquiry of the cause of it—when it was ascertained from the importers that the goods were sold to George W. Simmons of Oak Hall. A communication of this information to this city, led to the arrest of Johnson, who has confessed his guilt. He waived an examination at the Police Court yesterday, and was committed in default of \$2000 bail.—*Boston Whig*.

**STEALING FROM A THIEF.**—In the case of John Foley, the jury returned a verdict of guilty on two accounts. He was indicted for stealing about \$69 from Patrick Clifford, who had stolen the same from Thomas Gallagher. Mr. Gallagher had been sitting up all night with a sick child, and a little after day-light fell asleep in a chair. Clifford came into the place, and finding Gallagher asleep, stole his pocket-book. He then went the rounds of Ann-street, got a little corner, drifted into Foley's cellar, and there fell asleep, and while in that situation Foley stole the pocket-book, stating at the time that there was no law for robbing a thief. Foley's counsel, A. B. Merrill, Esq., has given notice of a bill of exceptions, upon the ground, that as Clifford had no property in the money, the taking it from him could not be a larceny.—*Boston Post*.

**MACKEREL FISHERMEN.**—The Mackerel Fishermen in this vicinity were never in better luck than at the present time. We learn, however, that the good fortune which has attended our Cape Fishermen has been confined, for the most part, to the Fishermen of this county—the mackerel having been found in great abundance about our shore—in Barnstable Bay and off Chatham. The schooner *Barnstable*, Capt. Bacon, of this place, was on the fishing ground but two days, and returned into port last week with one hundred and eighty barrels, mostly No. 1's—a circumstance almost unparalleled amongst us. Several other vessels have done nearly as well—and the probability is, that both the Bank and Mackerel Fishermen of Cape Cod were never more successful in their business than during the present season.—*Barnstable Patriot*.

Leeches are said to be very scarce, both in this country and in Europe.

**BRIGHTON MARKET, MONDAY, OCT. 18, 1847.**  
(Reported for the Boston Daily Advertiser.)

At market 2250 Beef Cattle, 900 Stores, 4500 Sheep, and 3275 Swine.

## PRICES.

**Beef Cattle.**—The offerings of Beef Cattle were large, and prices declined. We quote Extra 6 50; first quality 5 75 a 6 25; second 5 25 a 5 75; third 4 10 a 5 10.

**Stores.**—Sales quick. Two year old \$12 a \$18; three year old \$22 a \$35.

**Sheep.**—Sales at 1 50, 1 70, 1 88, 2 25, 2 50, and 3.

**Swine.**—Sales quick; lots to peddle, not selected, 44 and 54; old Hogs 43, 5 and 46; Ohio Hogs 44, 46, and 50, selected. At retail 5 and 6c.

## SPECIAL NOTICE.

IF READER, have you been to the *Oregon Clothing Warehouse*? If not, go soon. Some good bargains can be obtained. You that are wearing your old coats, vests and pants, can buy a good outside coat for \$10, a vest for \$1, pants for \$1, and many other articles equally low. See advertisement.

THE FOLLOWING EXTRACTS from letters, show that *Dr. Jagne's Medicines* are universally esteemed:—

Messrs. Dyer & Co., Middletown, Conn., say:—Will you please to send us some more of your *Sanative Pills*, as we are out.—Please send them as soon as you can, as they are in great demand.

Dr. E. De Witt, Elkhart, Ohio, says:—Your *Expectorant* stands high in the estimation of all who have used it. Indeed the same may be said of all your medicines left with me, so far as they have come into notice.

Dr. De Witt is a Physician of high standing in Lorain Co.

Smith T. Price, Morristown, Ohio, says:—Your *Medicines* sell well, and are in high repute here. The *Sanative Pills* are very highly esteemed.

Wm. Millington, Ashland, Ohio, says, May 3, 1845:—The *Expectorant* and *Vermifuge* is now selling very fast. The *Pills* are principally sold.

Wm. McIntosh, Beverly, Ohio, March 1845, says:—Your medicines so far have proven excellent remedies for the diseases they are recommended for. The *Sanative Pills* and *Vermifuge* in particular.

Ellis Minshall, Eaton, Ohio, Dec. 22, 1845, says:—Your *Sanative Pills* are an excellent Family Medicine. The *Carmine Balm* sells well.—The *Ague Pills* I think a good article.

Thompson Graham, Mercer, Pa., says:—Your *Medicines* are highly valued here by all who have used them.

Dr. John G. Schmidt, Woodstock, Va., says:—You will please send me some more of your *Expectorant*. Your valuable *Medicines* are selling well, particularly the *Expectorant* and *Sanative Pills*.

Mr. C. C. Wick, Wayne, Ohio, says:—Your *Pills* and *Vermifuge* are giving good satisfaction and are doing wonders here.

For sale in Newport, by Dr. R. R. Hazard.

## MARRIAGES.

A large supply of LEAD PIPE is kept on hand, which will be fitted

## Medicines

Dr. Townsend's  
SARSAPARILLAThe most extraordinary Medicine in the  
World!

THIS extract is put up in quart bottles; it is six times cheaper, purer and more warranted superior to any sold. It cures sores without vomiting, purging, sickening, or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates diseases it invigorates the body. It is one of the very best Spring and Summer medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. In this lies the grand secret of its wonderful success. It has performed within the past two years, more than 3,000 cures of severe cases of disease; at least 6,000 of these were considered incurable. More than 3,000 cases of Chronic Rheumatism; 2,000 cases of Dyspepsia; 4,000 cases of General Debility and Want of Energy.

7,000 cases of the different Female Complaints; 1,000 cases of Erysipelas; 1,000 cases of Liver Complaint; 2,500 cases of Disease of the Kidneys and Drunkenness.

8,000 cases of Consumption, and thousands of cases of disease of the blood, viz: Ulcers, erysipelas, salt rheum, pimple on the face, &c. &c. Together with numerous cases of skin diseases, pain in the side and chest, spinal affections, &c. &c.

This we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Hook, Esq., one of the most respected his doctors in New York, writes: "I inform you that he can refer to more than 150 cases in that place alone. There are thousands of cases in the City of New York which we will refer to with pleasure, and a man of character. It is the best medicine for the prevention of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON. As it removed the cause of disease, and prepared them for the Summer season.

UNITED STATES OFFICER.  
Capt. G. W. McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

Railway, Jan. 2, 1847.  
A year since I was taken with the Influenza and my whole system left in a debilitated state. I was incapable of trying Dr. Townsend's Sarsaparilla, and after taking two or three bottles I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.  
G. W. McLEAN.

SCROFULA CURED.  
This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.  
Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores, have taken some four bottles; it took them away, for which I feel myself under deep obligation.

Yours respectfully,  
ISAAC W. CRAIG, 106 Wooner-st., New York, March 1, 1847.

BROOKLYN, Jan. 3, 1845.

TO MOTHERS AND MARRIED LADIES.  
This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "The turn of life," should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at a time of life. This period may be delayed for a year or years by using this medicine. Nor is it less valuable to those who are approaching old age, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It cures the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce a subsequent relaxation, which is the case of most medicines taken for female weakness and disease.

## OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union. This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

H. P. FULING, M. D., J. WILSON, M. D., R. B. BRIGGS, M. D., F. E. ELMEVORE, M. D.

The following is from one of the most respectable physicians on Long Island:—

Greenport, July 10, 1846.  
Dr. Townsend: Dear Sir—I am with satisfaction that I say to you, that I have not only witnessed, in several cases, the most beneficial results from the use of your Extract of Sarsaparilla. Being engaged in the practice of medicine, I have prescribed it in several cases, and never without benefit. In the removal of diseases arising from a deranged state of the digestive organs, jaundice, &c., it far exceeds any thing of the kind ever before offered to the public. You will please send me two dozen, &c. &c.

Respectfully yours, S. C. PRESTON, M. D.

## RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief, but this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:—

Dr. Townsend: I have used one bottle of your Sarsaparilla, and find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occurred several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians, and recommended your Sarsaparilla.

Hartford, March 12, 1845. SETH TERRY.

## FILES! FILES! FILES!!!

Dr. Townsend's Sarsaparilla is no less successful in treating this distressing complaint, than for diseases of the Blood, Dyspepsia, Rheumatism and various Debility. Read the following:—

Dr. Townsend: Dear Sir—The effects of your Sarsaparilla are truly wonderful. For the last six or eight years past, I have been subject to severe attacks of the piles, during which I have suffered all the tortures of that complaint, and had a spasm of ever finding relief, except in death. I have the pleasure to tell you that I am yet a "happy man in God's hand." I have used one bottle of your Sarsaparilla, and feel no return of my old complaint. I send you this for publication, and any person who may refer to me, I would be happy to inform of the benefit I have received at your hands.

Yours truly, JOHN HALL, 49 Fulton-st., July 4, 1846.

## Medicines

## CAUTION.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of unscrupulous persons have been induced to imitate its name, and to sell cheaply, and without any of its valuable properties. Some of these unprincipled men put up in some shaped bottles, and copied our certificates and advertisements, and have induced their brethren and other interested persons to allow the use of their names, to which they put Equivocal, to give them respectability. One man, a physician, and put up with respectable names, and doctors' names, for a livelihood. These and a great variety of other tricks are performed by these men to dispose of their trash. The public should be on their guard, and look out for counterfeits.

Principal Office, 126 Fulton-st. San Building N. Y.; Reading & Co. 8 State-st. Boston; Bryant & Co. 127 North Second-st. Philadelphia; S. H. Hance, Druggist, Baltimore; Durand & Co. Richmond; P. M. Cohen, Charleston; Wright & Co. 151 Charles-st. New Orleans; 101 South Pearl-st. Albany; and by the principal Druggists and Merchants generally throughout the United States, West Indies and Canada. [Aug. 7.]

For Sale in Newport, by R. J. TAYLOR.

A STRONG EVIDENCE that Dr. Jayne's Expectant is superior to all other remedies for Coughs, Consumption, Bronchitis, Asthma, and other Pulmonary affections, is that the same persons who commenced the use of it in their families ten years ago, still prefer it to all other remedies of the kind; and where any have been induced to try other preparations, they have almost invariably been disappointed in receiving the benefit which was reasonably anticipated from the high praises bestowed by the proprietors, and have returned to the use of Jayne's Expectant, as a remedy that never has failed to relieve them, and which probably never had its equal in arresting Pulmonary diseases.

HAVE YOU TRIED IT?—If not do not delay another day, but send immediately; if you have been one of the wise and prudent, and already bought a bottle, the question is settled—have you recovered your health.

MORE EVIDENCE OF THE VIRTUES OF JAYNE'S FAMILY MEDICINE.—Dr. J. N. Smith, Winsboro, N. Y., says—Some of our Family Medicines have reached this part of the country. They seem to do much good, and are eagerly sought after by all who are acquainted with their medicinal virtues. I should be glad to have an Agency for the sale of them, as I flatter myself that my reputation as a Physician is such, as will promote your interest in their sale. The expectant appears to be in the greatest demand here.

Mr. J. H. Wallace, Milford, Pa., says—The first six months very little Medicine was sold, excepting your Worm Medicine, which was soon disposed of. It is but a short time since the Expectant was much called for. I had used one bottle in my family, and found it an excellent Medicine for colds. This Spring there have been an unusual number of persons complaining of heavy Colds, and the most of them have found relief by using your Expectant.

Mr. Thos. M. Turner, Savannah, Geo., says—We have been very successful in selling your Alternative, and we have but a few bottles left; we wish you to send us a gross by the first vessel. Messrs. Whitney & Lathin, Mount Morris, N. Y., says—We are about out of your Vermifuge and Hair Dye, and have daily calls for the Vermifuge, which stands very high in this section. The sales of all your medicines have been good, and continue to increase.

Ezra Tuttle, Willoughby, Ohio, says—Your Vermifuge and Pills sell very readily here—I could have sold much more of them if I had them. E. P. Steadman, Mayville, N. Y., says—I find your Vermifuge and expectant give good satisfaction, and we should be glad to have another lot.

PINE SWEDISH LEECHES, just rec'd at R. K. HAZARD'S, Sign of the Mortar near the Court House.

COLOGNE.—Best German, French & American Cologne's, and a variety of handkerchief perfumes at R. K. HAZARD'S, Sign of the Mortar near the Court House. July 31.
